# THE NEWPORT DIRECTORY.

The undersigned hereby give notice that they have sold to Messrs. SAMPSON, DAVENPORT, & Co., of Boston, all their right, title, and interest in and to the Newport Directory, by whom the Directory will hereafter be published.

We thank the citizens and business men of Newport for their generous patronage in sustaining our efforts to publish for their city a first-class Directory, and take pleasure in recommending to them the well-known house of SAMPSON, DAVENPORT, & Co. as in every way worthy of their confidence and most liberal support.

Respectfully,

J. A. & R. A. REID.

PROVIDENCE, R.I., June 12, 1883.

IN assuming the responsibilities and labors attendant upon the publication of the City Directory of Newport, it is deemed desirable to call the attention of our patrons to some features of the work that might otherwise be overlooked. Few people can have an adequate idea of the actual amount of labor involved in collecting and compiling the various departments of a Directory. Each individual name must be picked up separately, and every dwelling, office, store, shop, and building within the limits of the city must be visited by our canvassers, many of them several times, for the purpose of securing accuracy and completeness in the work. Changes are constantly occurring, and a very large number have taken place in Newport during the past year. The almost universal re-numbering of the streets has greatly added to our labors; there actually being only one hundred and fifty-six names in the book of last year that remain in the present one without some alteration. This fact renders the new Directory indispensable.

The Street Directory is presented in a new form, in very complete and systematic arrangement, giving the cross streets and intersecting numbers from the new official plans. The Map is practically a new one, carefully engraved and handsomely colored, showing the new ward boundaries as now existing.

Much care and labor have been devoted to compiling the Directory of Summer Residents, and those on Canonicut Island and other points in the vicinity of Newport have been included, so far as it was possible to obtain them. Particular attention is called to this important feature of the Directory, beginning on page 203.

It will be noticed that in the body of the work are given the names of citizens who have died during the year, with date of death; also the names of some who have removed from the city, giving the place to which they have gone. This is a new feature, and will undoubtedly prove of great value to those who consult the Directory.

The Institutions and Societies are fully represented in the Miscellaneous Department, many new ones having been added this year. A reference to the Index to Contents will show other features of the work, and perhaps reveal to some readers many matters of interest not usually sought for in a publication of this nature. Our aim is to make the Directory indispensable in every store, office, and residence throughout the city.

We take this occasion to thank the public generally for the uniform courtesy which has been extended to our agents while collecting the information for this book, especially those who have so generously favored us with their patronage, for without this material aid it would not be possible to issue a Directory except at a loss to the publishers.

SAMPSON, DAVENPORT, & CO.

# STREET DIRECTORY.

GIVING the location of the Streets, Places, Parks, Squares, etc., and showing what other streets and places run from them, or across them, with the number at which they intersect, taken from the official records of the NEW NUMBERING.

From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Broadway No. 220 is located, you look at Broadway, page 22, and find that Gould Street runs from 202, and Park Street from 228, showing that 220 would come on the left, between Gould and Park.

## WARD BOUNDARIES.

JANUARY, 1883.

*[Ordinance passed by City Council of the City of Newport, Dec. 5, 1882.]*

The FIRST WARD shall comprise that portion of the city embraced within a line commencing at a point at the extreme north point of the shore at Coddington Point, then following the shore of Coddington Cove to a point opposite the centre of a straight prolongation of the road running northerly from Sunset avenue, then running through the centre of said prolongation and said road, through the centres of Sunset avenue, Coddington avenue, Malbone avenue, Warner street, Burnside avenue, West Broadway, Marlborough street, Thames street, and Long wharf, in a continuous line, to City wharf, then around and including City wharf, and taking in all the remainder of Long wharf westerly, and following the shore, including all the wharves and docks and Coasters' Harbor Island, to the point of beginning at Coddington Point.

The SECOND WARD shall comprise that portion of the city embraced by and within a line commencing at the centre of Marlborough street at the junction of West Broadway, running across Broadway, through the centres of Bull street, Kay street, Ayrault street, and Catherine street in a continuous line, directly across Easton's Pond to the Middletown line, then following the Middletown line to Coddington Cove and along the shore of said cove to the line of the First Ward and along the First Ward line to the point of beginning at Marlborough street and West Broadway.

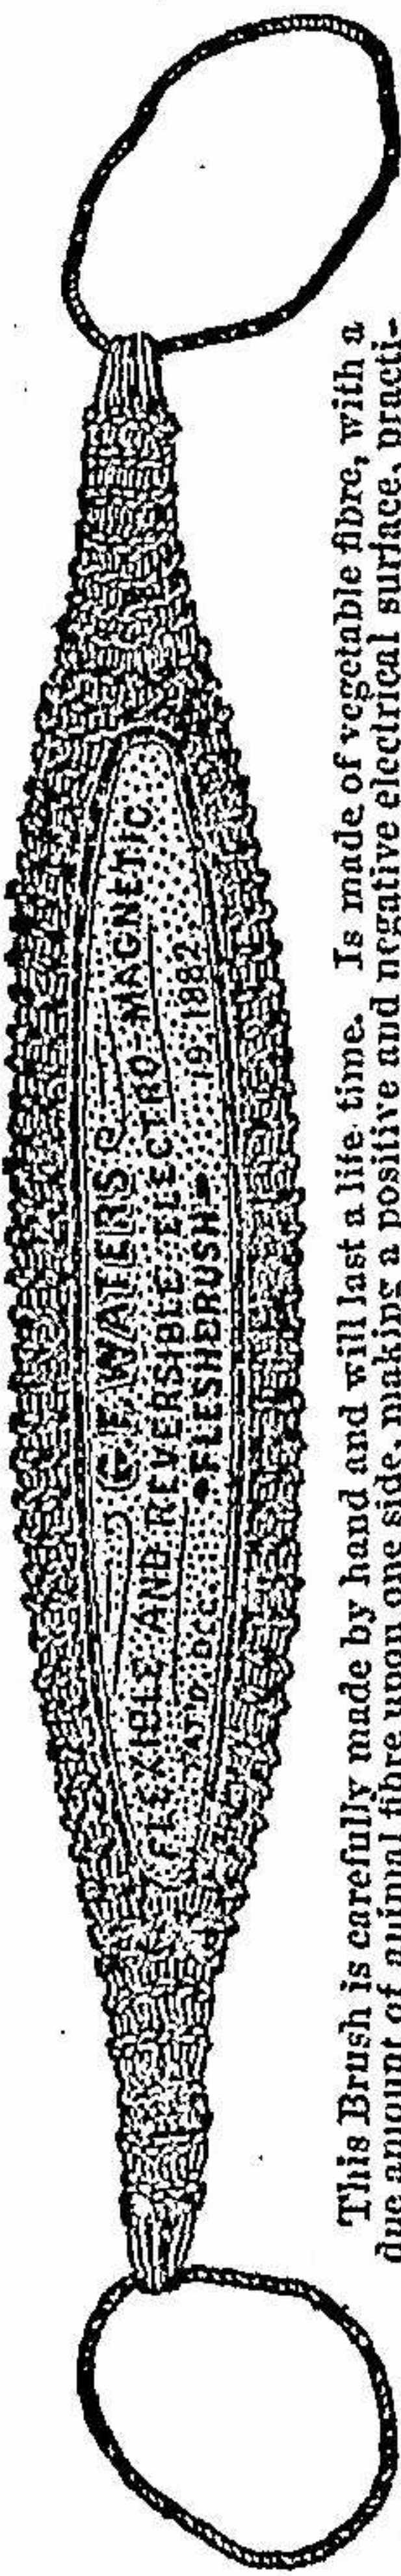

The THIRD WARD shall comprise that portion of the city including the docks and wharves, bounded northerly on the said First and Second Wards and southerly on a line commencing at the centre of Kinsley's wharf at the harbor, and running thence in an easterly direction along the centre of said wharf and the centre lines of Pelham, Spring, Mill, Beach, and Buena Vista streets, continuously, and across Easton's Pond in a straight continuation of said centre of Buena Vista street, to the Middletown boundary line.

The FOURTH WARD shall comprise all that portion of the city, including the docks and wharves, bounded northerly on said Third Ward and southerly and easterly by a line beginning at the centre of Lee's wharf at the harbor, and running easterly along the centre of said wharf and the centres of Young, Bowery, and East Bowery streets to the Annandale road, then northerly along the centre of Annandale road and Bath road, and easterly again along the centre of said Bath road to Easton's beach and along the sea shore at said beach to the Middletown line. Provided that said south line shall run northerly from the centre of Young street and around the number seven engine house back to said centre of Young street so as to include said engine house in the Fifth Ward.

The FIFTH WARD shall comprise all the remainder of the southern portion of the city lying south of the Fourth Ward aforesaid, including the docks and wharves.

No Two Persons  
SHOULD USE  
THE SAME BRUSH.

This Brush is carefully made by hand and will last a life time. Is made of vegetable fibre, with a due amount of animal fibre upon one side, making a positive and negative electrical surface, practically, a double instrument. The material is so disposed that, when in use, a firm looped fibre is brought in contact with the surface to be acted upon instead of the ends of bristles as in the old brush, giving it great detergent power. It assists in restoring to and preserving in health by quickening the surface circulation, relieving internal congestions, freeing the pores of the skin, and promoting their functional activity; in that way relieving the blood of much clogging, effete matter, that would otherwise oppress the circulation and might injure the lungs and kidneys in passing from the body, possibly producing Bright's disease or Consumption. It is an admirable substitute for the Turkish Bath; giving most of the benefits of that luxury, and by it a better Massage Treatment is had in five minutes than by the hand in an hour. A proper daily use of this Brush helps all the organs of the body towards a healthy activity. It will be sent free of expense with full directions for use worth more to any one than the price of the Brush, on receipt of \$3.

**CODMAN & SHURTLEFF,**

13 and 15 TREMONT ST., BOSTON.

MANUFACTURERS AND IMPORTERS OF

# **Surgical & Dental INSTRUMENTS,**

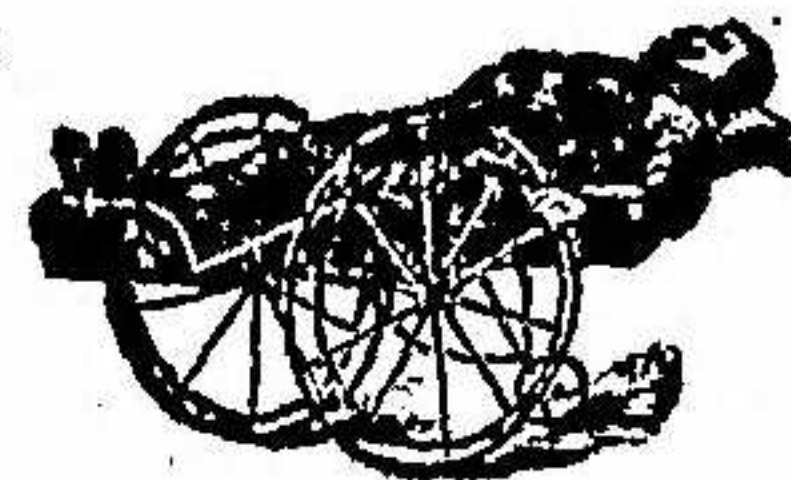

Besides a complete assortment of articles intended for the exclusive use of the Medical and Dental professions, have always in store, at the lowest prices, a great variety of the following articles, suited to the wants of the general public:

**INVALIDS' ROLLING**

— AND —

**BATH CHAIRS.**

## **TRUSSES,**

A large assortment of best patterns from which to select, to meet the requirements of each case. If convenient, persons requiring Trusses should call at our establishment, where they can have a suitable Truss carefully fitted by a competent and experienced person familiar with the anatomy of hernia. When a call in person is impracticable, a careful description should be sent, stating whether the rupture is on the right or left side; also the measure around the person, two inches below the top of the hip bone. If the rupture is at the navel, the measure should be around the body at the navel. N.B.—Ladies attended by those of their own sex.

## **ELASTIC HOSE,**

For Varicose Veins, Swollen Limbs, and Weak Joints. Of these goods we have several classes of silk and cotton, possessing different degrees of elasticity; the stout silk being usually the most satisfactory. The sizes are full length (of leg), three quarters, half or knee hose, knee caps, and anklets. Unusual sizes made to order. Also,

Elastic and Spring Abdominal Supporters, Shoulder Braces, Suspensory Bandages, Apparatus for Weak Ankles, Bow-Legs, Club-Foot, etc.

Also, Crutches of various and most improved kinds; Syringes, Rubber Urinals, to wear on the person day or night, for Males and Females; Galvanic Batteries, Hearing Trumpets, Auricles, and Conversation Tubes for the Deaf.

Together with many other articles for the use of the SICK and INVALIDS. Also the largest and best assortment of

## **Atomizers & Nasal Douche,**

To be found in the United States. A GOLD MEDAL has lately been awarded us by the Middlesex Mechanics Association, as will be seen from the following report, signed by a leading New England Surgeon and Physician:

"1503. CODMAN & SHURTLEFF, Boston, Mass. One Case Surgical Instruments and Atomizers.

"The Committee have no hesitation in awarding for this superb exhibition the highest premium. \* \* \* The various other instruments for inhalation of atomized liquids, and for Local Anæsthesia, were all apparently faultless, both in design and workmanship. The exhibitors are regarded as more especially deserving of the highest token of merit for having produced nothing except their own manufacture. GOLD MEDAL. (Signed), GILMAN KIMBALL, M.D., Chairman."

# NEWPORT TRANSFER COMPANY.

General **BAGGAGE** Express.

**EDWARD A. TAFT**, President. **C. B. MASON**, Superintendent.

**PRINCIPAL OFFICE:**

**4 Travers Block, Bellevue Avenue.**

**BRANCH OFFICES:**

**175 THAMES STREET,  
NEW YORK & BOSTON DESPATCH EXPRESS CO.,**

**J. I. GREENE**, Agent.

**NEW YORK FREIGHT DEPOT, . . . . FALL RIVER LINE,**

**A. P. BRYANT**, Agent.

## **STORAGE WAREHOUSES**

Have been provided on Bellevue avenue, where household goods may be placed in separate rooms, and every attention will be given to have the same properly cared for. Insurance will be effected when desired.

## **THE ARMSTRONG TRANSFER CO., OF BOSTON,**

Runs in direct connection with this Company, and our Boston patrons will find, by the use of the Transfer Companies in each city, that the annoyances incident to travelling are largely done away with.

## **THE MANAGEMENT**

Take pleasure in announcing that having purchased and consolidated the interest of the Baggage business, together with the good will of the same, of **B. J. BURTON, BRYANT & SMITH,** and **HORACE CARLISLE**, into a Corporation, under the name of the

## **NEWPORT TRANSFER CO.,**

it is their intention to offer the public a well arranged, thoroughly equipped, and responsible Baggage Transfer Company, second to none found in the larger cities.

**Mr. B. J. BURTON** continues an interest, and has been appointed Contracting Agent, and will be pleased to serve his customers as in the past twenty-seven years.

**Mr. A. P. BRYANT** is identified with the Company, and has been appointed Agent at the New York Depot, Fall River Line.

Messengers of the Company will be found on the incoming trains of the Old Colony R.R., and the boats of the Fall River, Wickford, and Providence Lines.

Tickets for the above Lines are on sale at our office.

Calls will be promptly made at any part of the city, and baggage checked at residence, to **Boston, New York, Philadelphia, Baltimore, Washington,** and other principal cities.

This feature saves the traveller the annoyance of being obliged to go to trains and boats at an early hour, to arrange for identification and checking of his baggage.

## **PIANO-FORTES**

Packed and unpacked, marked and shipped to all points; also on arrival here, delivered and set up ready for use.

**HOUSEHOLD GOODS MOVED WITH CARE.**

## REMOVAL.

THE OFFICE OF

DAVID CLAPP & SON,  
 General Book and Job Printers,

Which for nearly forty years was located at the corner of Washington  
 and Franklin Streets, and for the past twenty years at  
 564 Washington Street, has been removed to

35 BEDFORD ST., BOSTON,

Where they are prepared to execute all orders with accuracy and promptness.

MACHINERY.

BESIDES our SPECIALTIES shown in the SEVEN following pages, we make and deal in

NEW AND SECOND-HAND

Hydraulic and Screw Presses, Oil Mill Machinery, Steam and Centrifugal Pumps, Injectors, Shafting, Pulleys, Belting, Wire Rope, Blowers, Mills, Hoisting Wheels, Water Wheels, Elevators, ENGINES, BOILERS, and

GENERAL MACHINERY,

Iron Fences, Doors, Shutters and Vault Work,—and do. General Machine, Blacksmith, Millwright, Pattern and Model Work, Power Forging, Large Planing, Turning, Etc., Etc.

THE J. O. HOADLEY

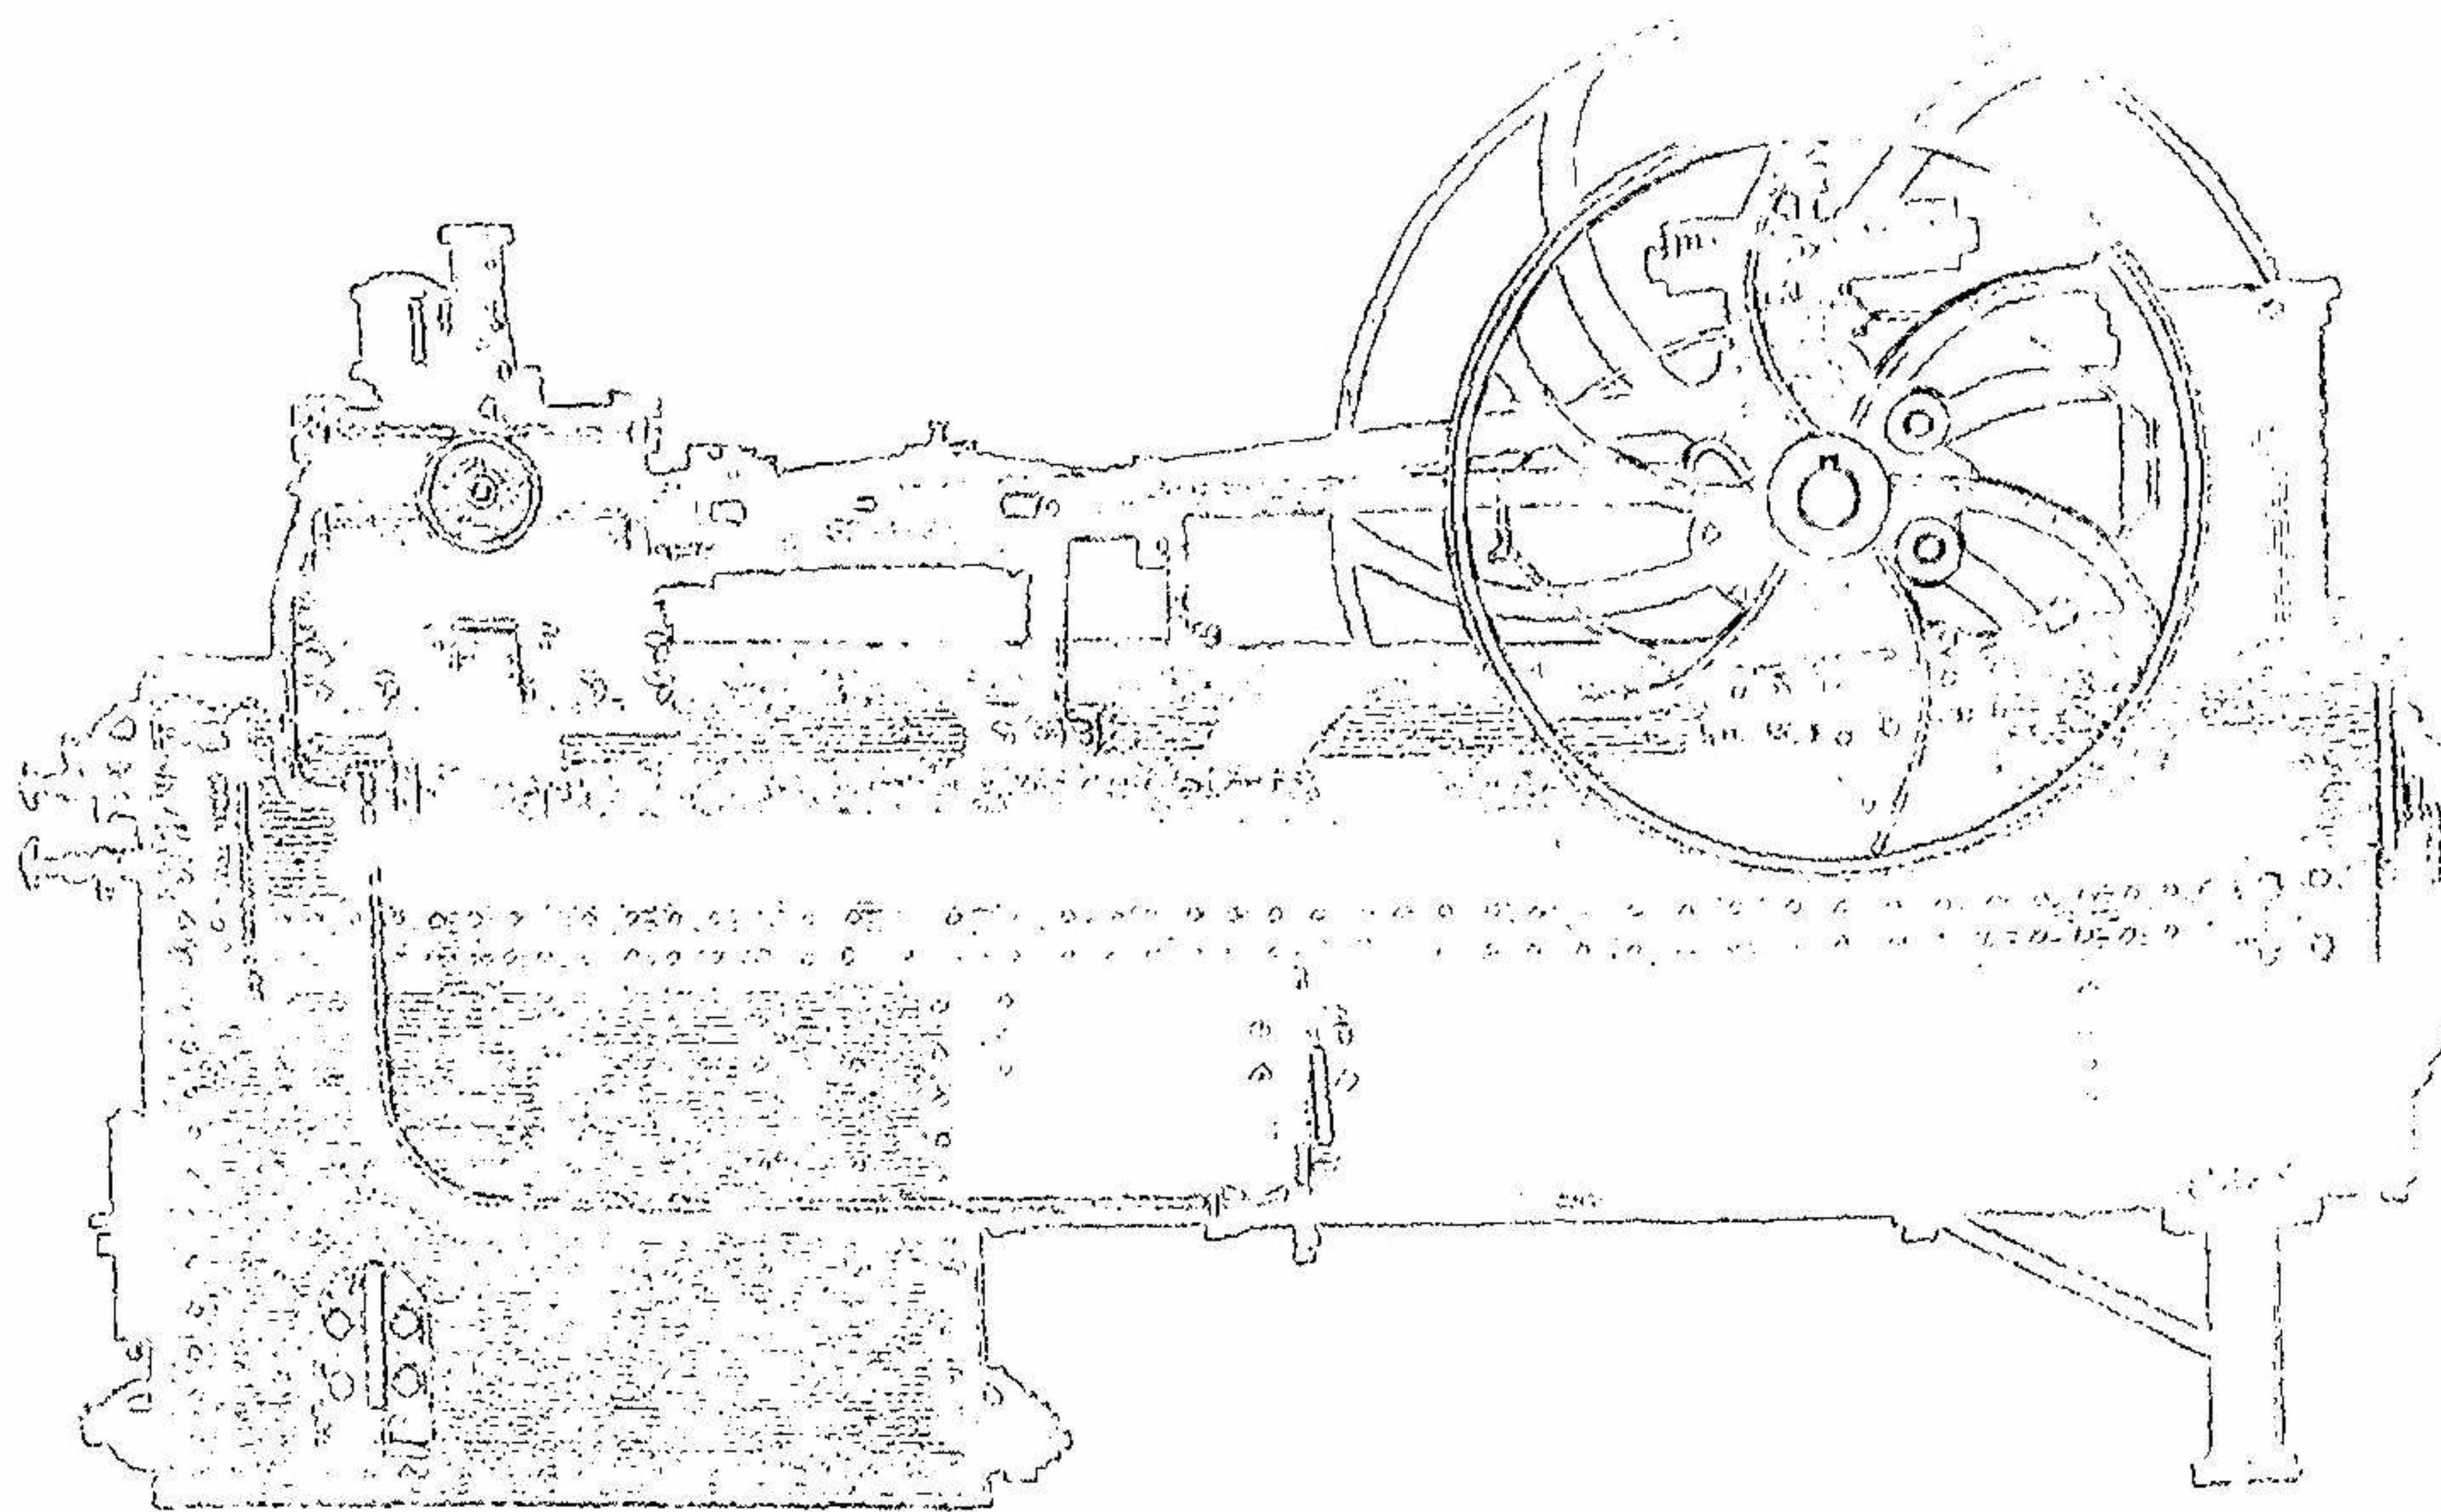

IMPROVED

# PORTABLE ENGINES.

—All Sizes from 9 to 100 Horse Power.—

(COVERED BY FIVE PATENTS)

Made only by GEO. T. McLAUTHLIN & CO.

This cut shows the unmounted Engine complete, except the Exhaust Pipe, with Pump and Regulator ready for use.

These wonderfully efficient and economical variable speed Portable Engines have no competitors in ECONOMY OF FUEL AND WATER, and in regulation of speed.

They are widely known and have attracted the favorable attention of many expert Steam Engineers, both at home and abroad.

In the Centennial, after most thorough and exhaustive tests, HOADLEY PORTABLE ENGINES received the highest honors, and the highest possible appreciation of the Judges. See Special report, Group No. 20.

McLAUTHLIN'S

PATENT

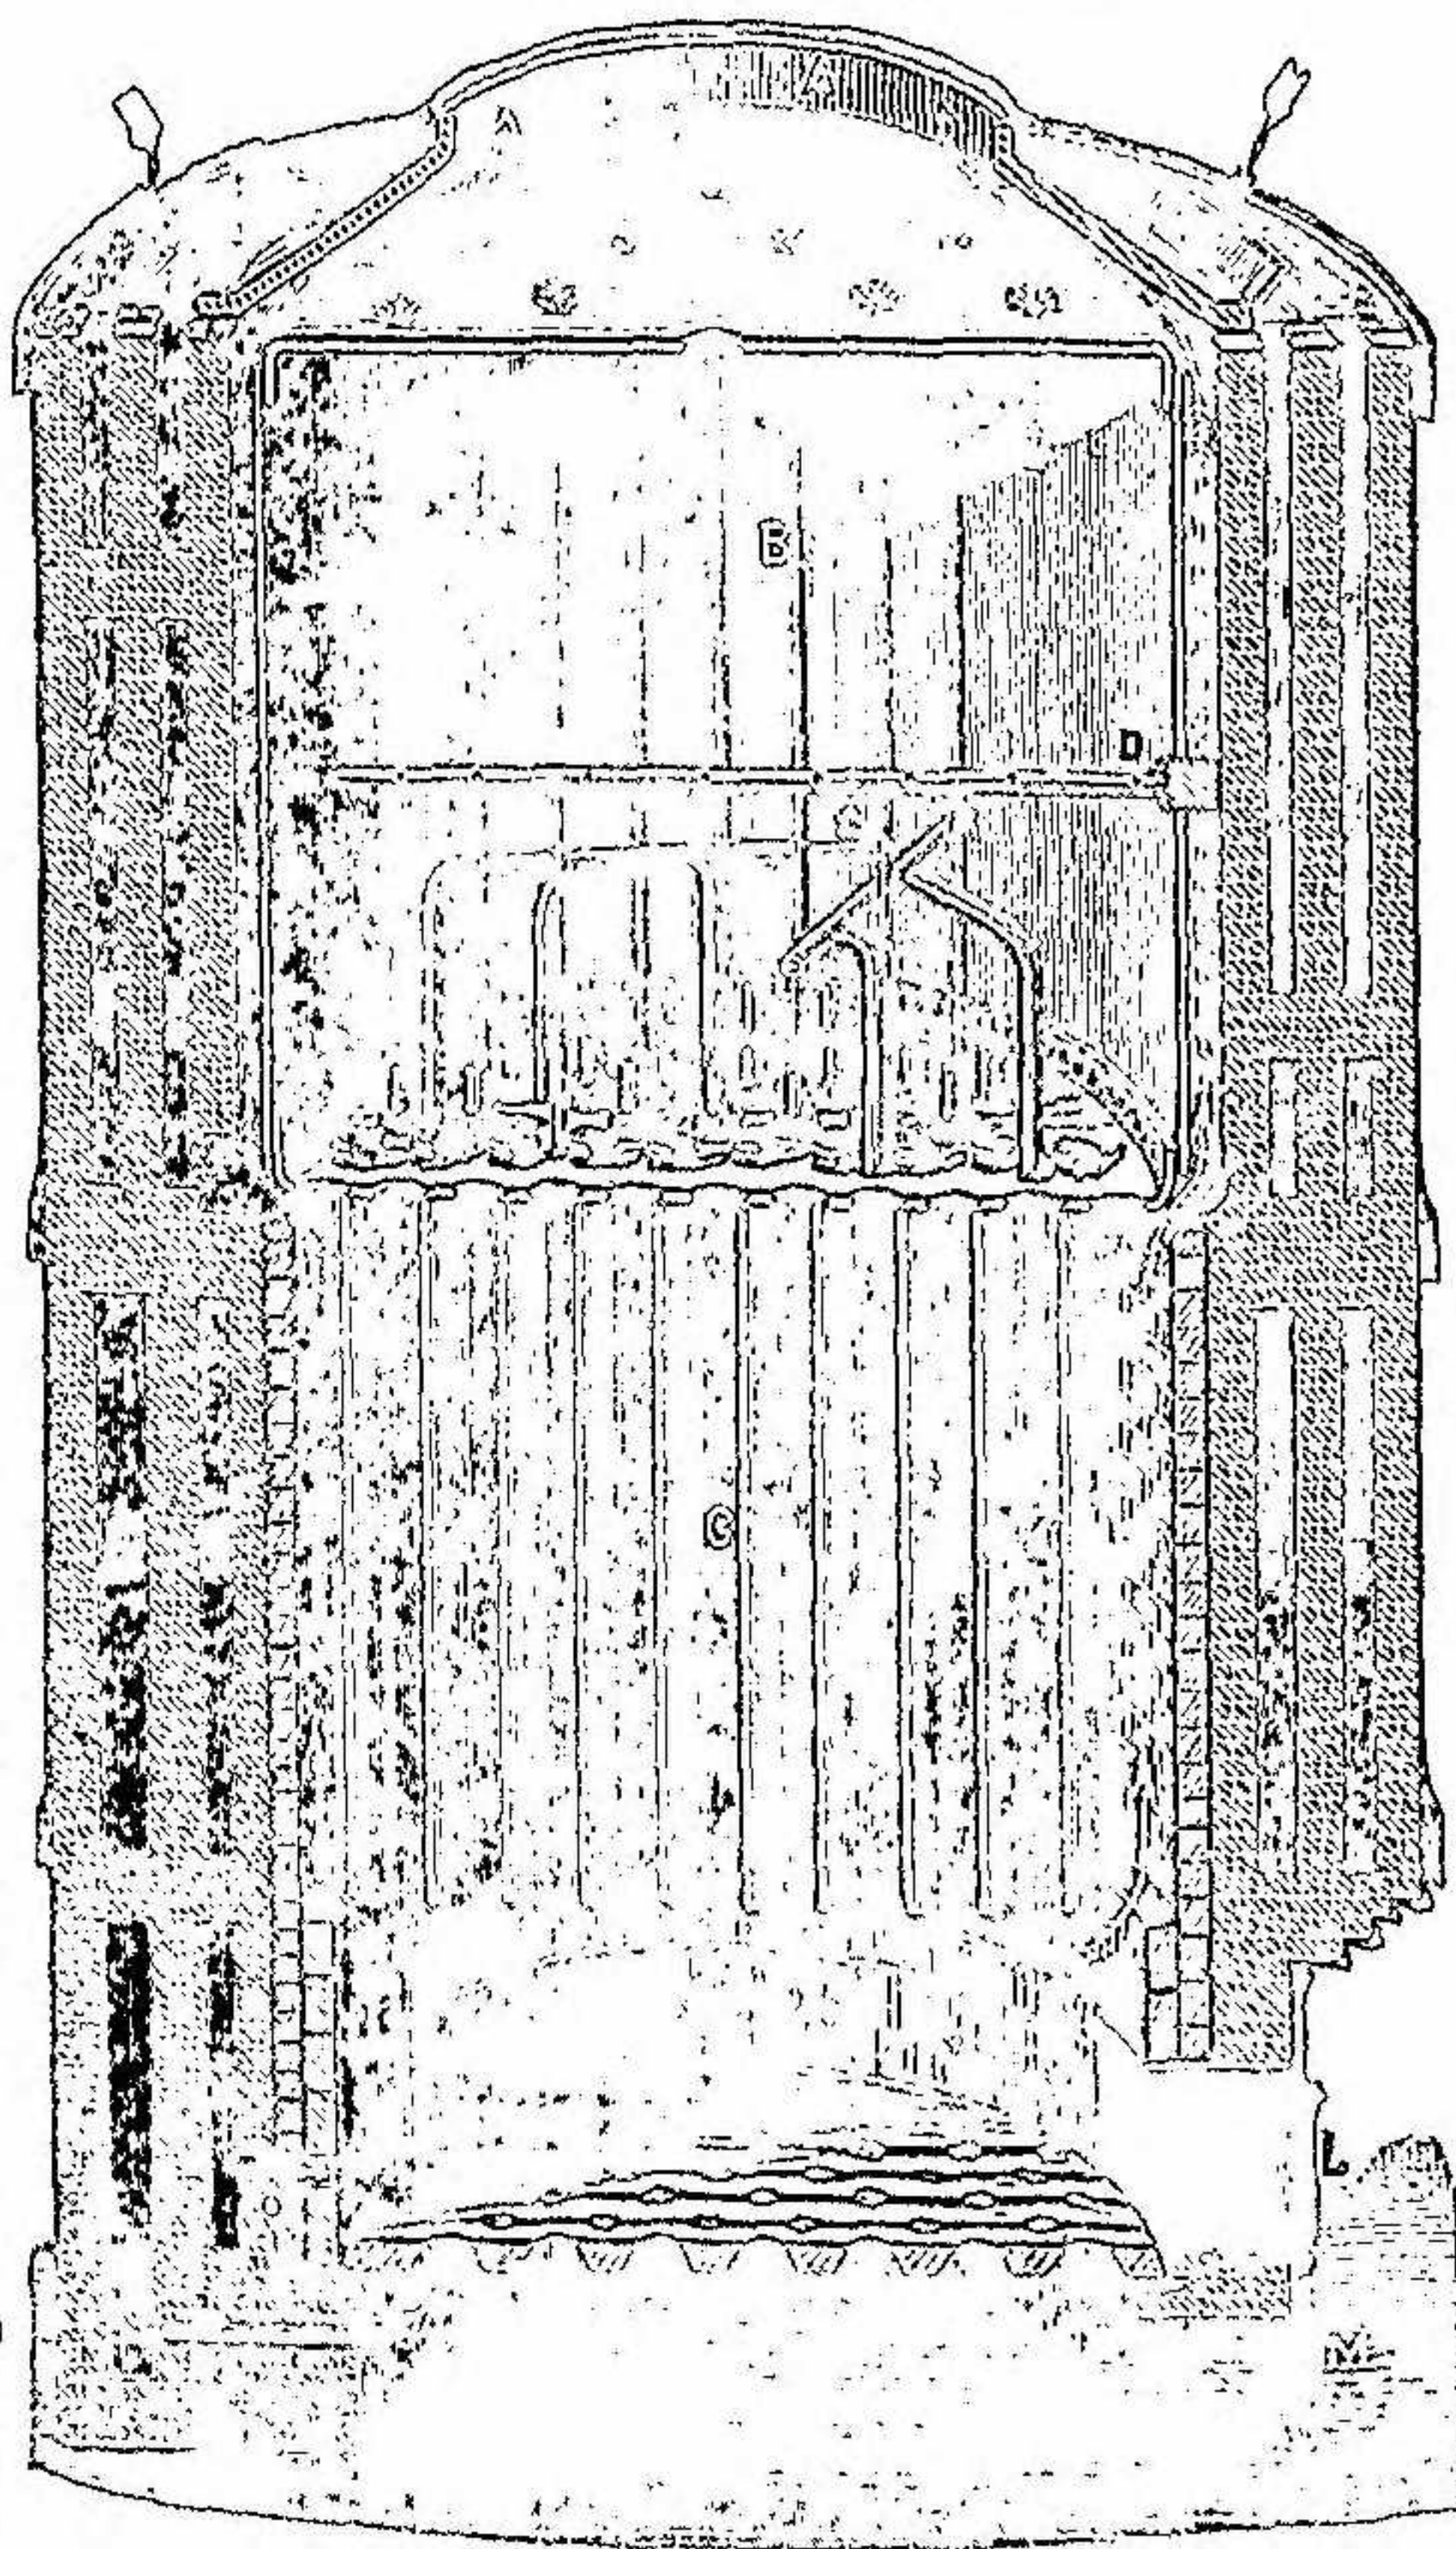

# DROP-TUBE SAFETY STEAM BOILERS,

COMBINING

Large steam and water space; perfect circulation; entire freedom from unequal expansion; ample heating surfaces; superior draft; suspension entirely within the fire chamber; protected brick work,—the supply of air passing down its air spaces, which also prevents waste of heat through it;—manifold safety blow-off,—which, combined with the enforced circulation, admits of using water that would prove dangerous in ordinary boilers;—distributive safety feed, etc., etc.

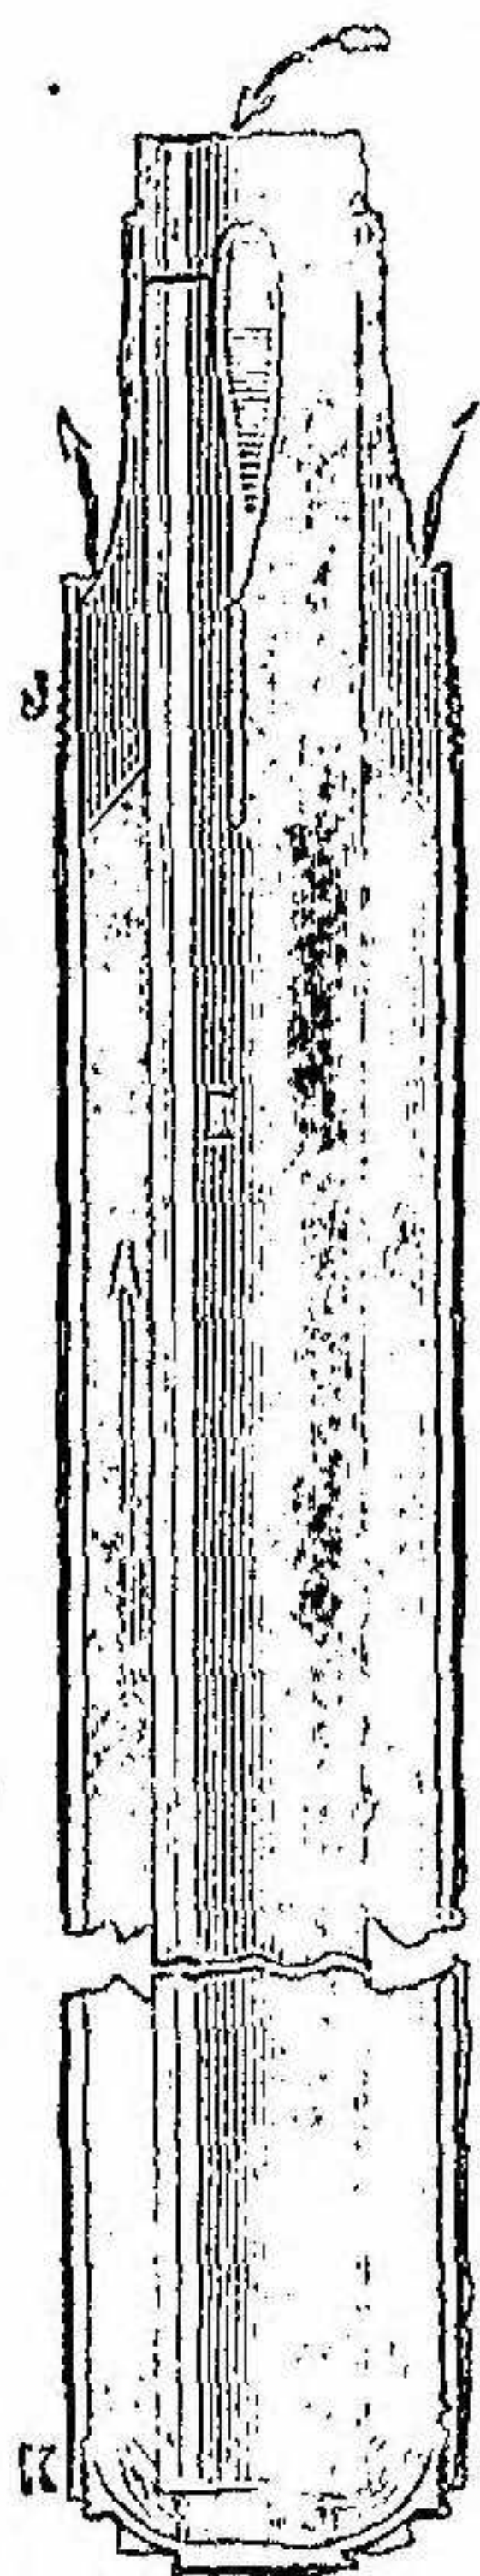

## THE LARGE CUT IS A VERTICAL SECTIONAL VIEW.

A, central smoke flue; B, steam and water cylinder; C, manifold blow-off, drawing from surface projecting through tube sheet; D, distributive safety feed-pipe; E, supporting rings, having lugs on which boiler rests. Ascending arrows show boiler entirely enveloped in the fire and gases. Descending arrows show supply of air through the brick work.

## THE SMALL CUT.

shows one of the tubes enlarged, the fire-tube J K in section. Circulating tube E rests on centering lugs on plug K. The tube guide at the top sustains itself by spring pressure, and receives tube E loosely within it.

These Boilers have proved, by fourteen years' use, remarkably economical and free from repairs or accident. They are made only of superior strength, materials, and workmanship, and are sold at the price of ordinary horizontal tubular boilers.

Ascending arrows show boiler entirely enveloped in the fire and gases. Descending arrows show supply of air through the brick work.

# PASSENGER, FREIGHT, CARRIAGE & HAND —ELEVATORS,— —HOISTING WHEELS, HATCH COVERS, &c., &c.—

This cut shows the car suspended by the *SAFETY* pawls and racks, as in case of the car being accidentally blocked or the rope broken.

Our Freight Elevators are without a competitor in price for an Elevator of their class. They are very extensively adopted, and *none* are operated with better satisfaction.

The cuts are imperfect, but give a general idea as put up on the simplest and most durable plan.

We get them up in styles to meet all locations and uses.

# —TEST TURBINE WATER WHEELS.—

—PRICES LARGELY REDUCED.—

Over thirty years' experience in the Water Wheel business, and a series of 5300 of the most accurate comparative test experiments on record, have led to the production of our

No. 1 and No. 2 TEST TURBINES.

We claim that for a number of years, working under the most severe conditions, the No. 1 has not its equal in economy of water, and freedom from vibrations and delays, and that the No. 2 is not surpassed by any wheels that can be furnished and put in at so little cost.

No. 1 Test Turbine.

No. 2 Test Turbine.

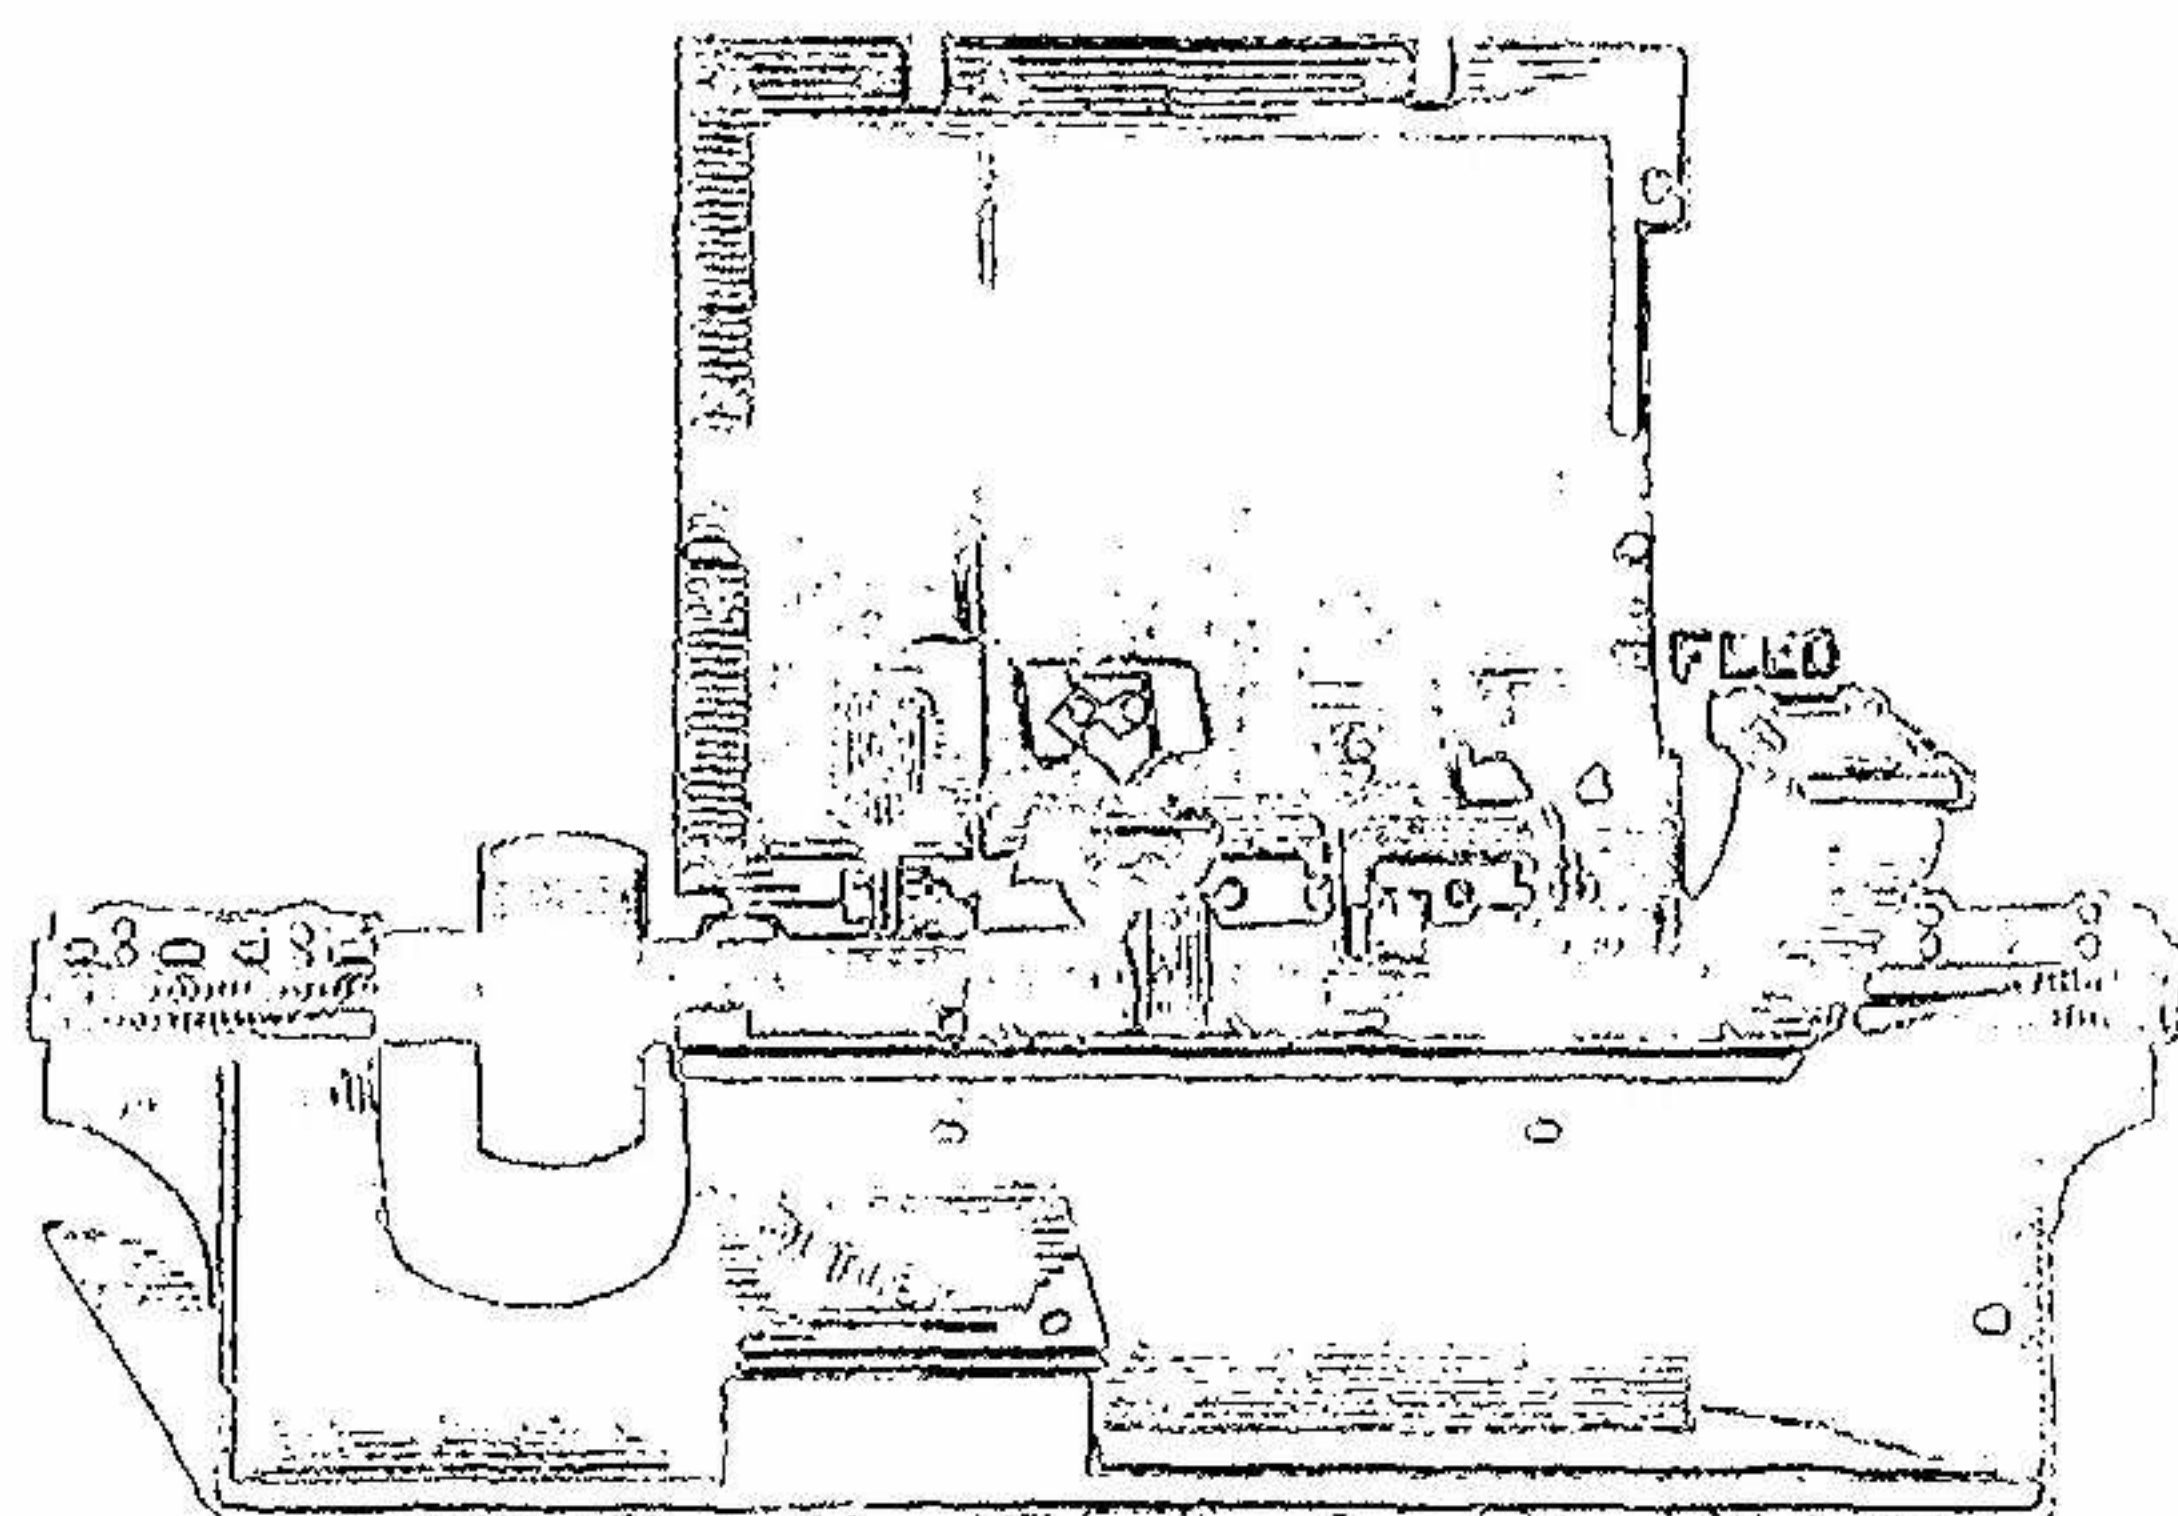

The No. 1 and No. 2 Test Turbines are the only ones of the kind that have been tested by the U.S. Army and Navy, and the results of the tests are as follows:—  
The No. 1 Test Turbine has been tested at the U.S. Army and Navy, and the results of the tests are as follows:—  
The No. 2 Test Turbine has been tested at the U.S. Army and Navy, and the results of the tests are as follows:—

THE PATENT

# MAGIC PULVERIZER

Has proved by years of *PRACTICAL WORK* its superiority for pulverizing *FRIABLE AND SEMI-FRIABLE MATERIALS*. No dressing or sharpening is required, and the wearing parts are easily replaced.

It consists of a Horizontal Cylindrical Case, with a rapidly revolving shaft carrying *STEEL PADDLES* in the first part, and *EXHAUST FANS* in the second, the combined operation of which creates concussive action of the grains upon each other in millions and in numberless repetitions, the material only escaping the combating vortices by the exhaust current, which is regulated for the fineness required.

It has been successfully used on a wonderful variety of materials, including Ores, Minerals, Limes, Glue, Bones, Asbestos, Sugar, Grains, Dried Roots, Paints, Chemicals, Fertilizers, etc., and for *GRANULATING* corn, meal, glue, etc. It has also proved valuable for *TRITURATING LIQUIDS*.

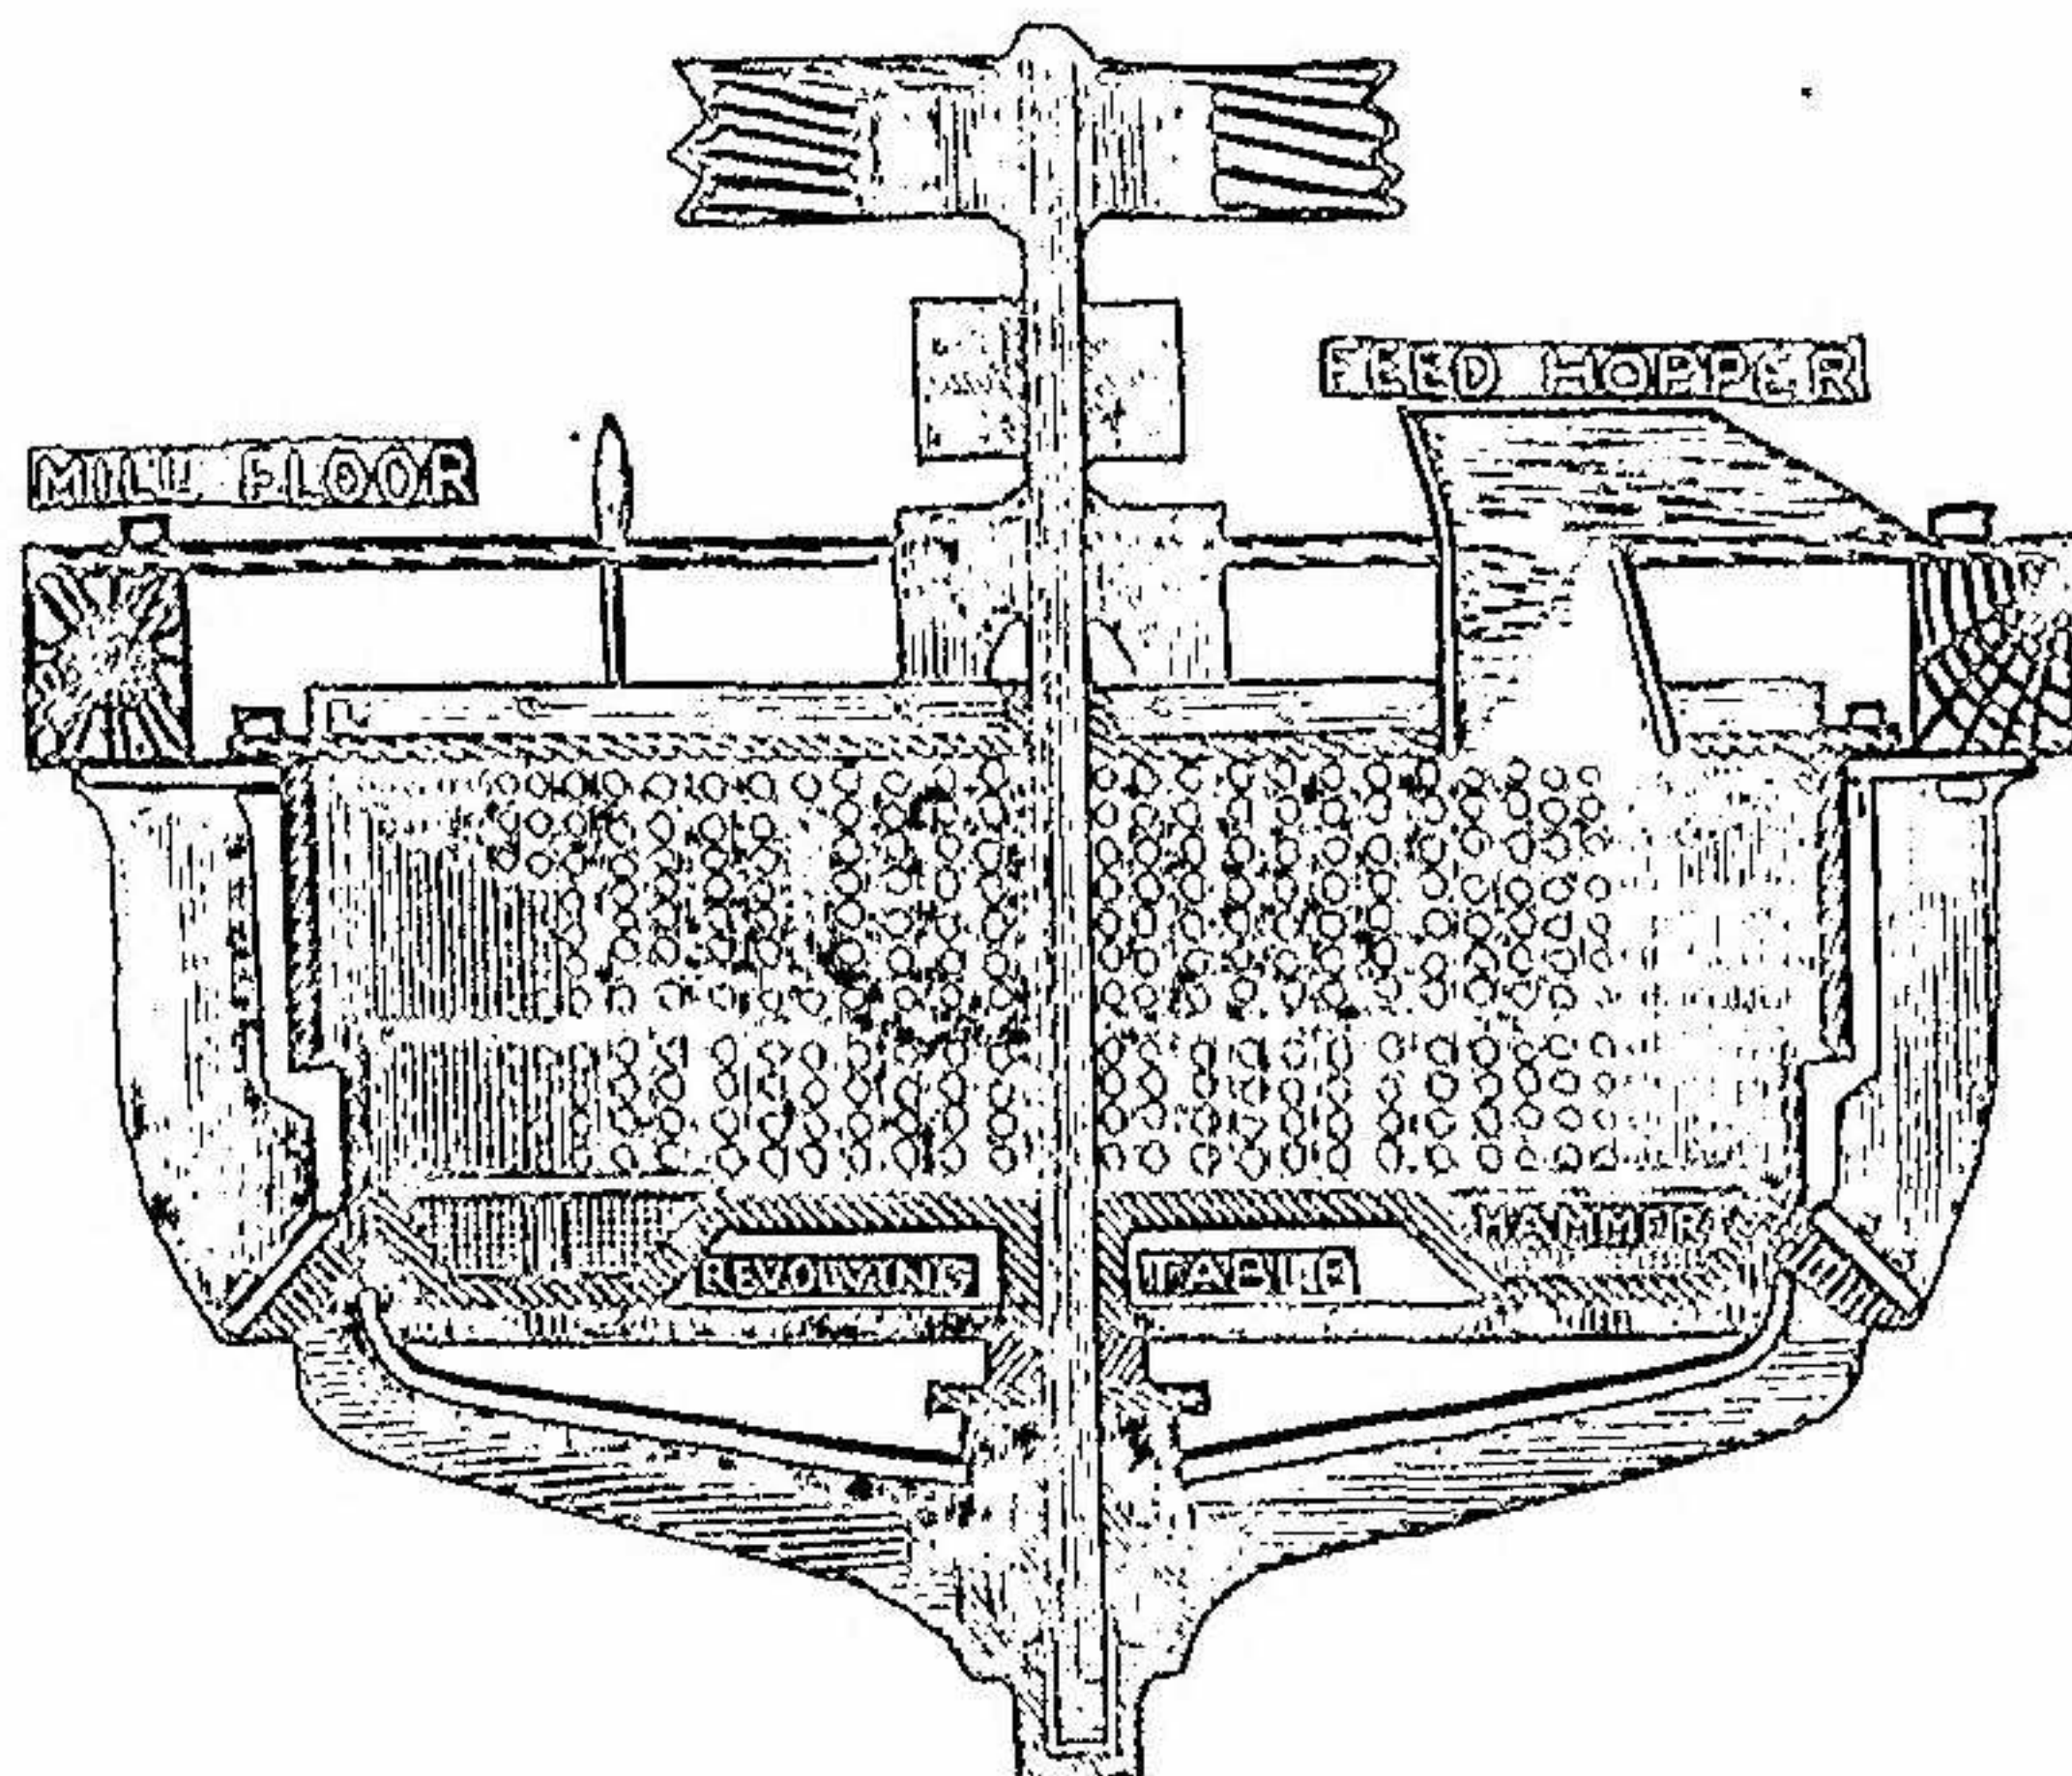

The engraving shows a small machine thrown open to show the internal parts.

A hopper to be placed at the "FEED" aperture conducts the material into the machine. The "OUTLET" is to be connected by a pipe to a large settling chamber, into which the pulverized material is discharged. The diaphragm seen within the casing is proportioned for medium work; for coarse it is made narrower, and for fine, wider.

—THE PATENT—

# —MAGIC CRUSHER—

Is adapted to all FRIABLE and most SEMI-FRIABLE substances, as proved by years of practical use. It consists of a Revolving Table, with Steel Hammers attached, placed upon a vertical shaft, and surrounded by a perforated casing, within which it revolves and through which the crushed material is discharged. The grade is controlled by the size of the perforations in the casing.

—The Material thrown in receives at the rate of 5000—  
—Shattering or Rending Blows per Minute, of a—  
—force due to a velocity of two to three—  
—miles per minute.—

No Crusher known works with less power or less wear and repairs. It crushes easily FIVE TONS AN HOUR, and COSTS LESS than any other of similar capacity.

The Cut is a vertical sectional view.

## BUSINESS EDUCATION,

Embracing Writing, Book-keeping, and the Laws of Business, Business Correspondence, and the Common and higher English Branches, Mechanical and Perspective Drawing. Also, Water-Color Painting, and Painting in Oil.

Daily Lectures will be given before the students, by the Principal and his Assistants, on Commercial Law, Political Economy, Partnership, Agency, Bills of Exchange, Mercantile Correspondence, Penmanship, etc., etc.

This Institution approximates nearer to actual business in its plan of teaching the science of BOOK-KEEPING, than that of any other institution in America.

Students may enter at any time and will be favored with separate and special instruction. For further particulars, call or send for our Illustrated Circular and Catalogue.

ADDRESS,

## Perfect Book-keeping vs. Defective Book-keeping.

---

A COMPLETE mastery of the science of Book-keeping is the crowning accomplishment of a business education.

It is through accounts, governed in their composition by correct principles, and scientifically rendered, that we reach intelligible, correct, and reliable results, in our book-keeping and in our business.

Governed by such principles, scientifically employed in planning and maturing a system of Book-keeping already published, submitted, approved, and adopted as a text-book by very many of the best accountants in this country, we claim to have produced a treatise on the science of Book-keeping, in the line of merit, far in advance of any treatise of the kind hitherto published.

Thus much as a prelude to the following discussion :

But to proceed : So fatally deficient in elementary governing principles are all other treatises on the theory and science of Book-keeping hitherto published ; and such are the undisguised gross violations of standard principles in recording various business transactions, which abound to a greater or less extent in all other treatises on this subject ; and so false to the facts in their several cases are certain records involving personal debit and credit, which records disgrace most treatises on the science of Book-keeping, inasmuch as one portion of these records represents virtually an abandonment of the valid personal claims they were designed to emphasize and protect, while the other portion of these questionable records represents the repudiation of the valid personal obligations they were designed to acknowledge and promulgate ; and

so false to standard principles of debit and credit are certain rules employed by these objectionable treatises to guide the student in his work, the legitimate application of which rules have no foundation in logical reasoning; and so vague, obscure, and impracticable are certain processes employed by these objectionable treatises in their attempts to reach correct results, that we have been constrained to make the following statement of facts in the interest of education:

Scholfield's new scientific system of Book-keeping, recently published by the Author, under copyright, and taught in his Commercial College, is the only scientific system of Book-keeping taught in America which will bear the light of modern criticism.

This work exposes and avoids that false system of practice which debits a portion of one's available claims against others to himself, and credits a portion of one's irrevocable liabilities to himself; thus debiting the creditor in the one case, and crediting the debtor in the other; a system of practice either openly advocated or silently approved by all other treatises hitherto published on this subject.

Again: Such are the fallacies indulged in by all other treatises on the theory and science of Book-keeping in general use; which treatises have misled Teachers, Students, and Practitioners alike in this much-abused science, that we have deemed it advisable to prepare and publish the following Axioms as a reliable standard by which the treatises of which we complain and the practices they engender may be correctly gauged, and exposed to the light of reason and sound logic, where their glaring absurdities and pernicious practices will be made to appear:

#### AXIOMS.

First. A debtor should never be credited for an obligation due from him to another.

Second. A creditor should never be debited for a claim held by him against another.

Third. A person should never be both debited and credited for the same thing in one transaction.

Fourth. An asset should never be treated, either in business or in Book-keeping, as a liability.

Fifth. A liability should never be treated, either in business or in Book-keeping, as an asset.

Sixth. Profit and Loss should never be debited when no loss, either direct or indirect, has been incurred.

Seventh. Profit and Loss should never be credited when no profit, either direct or indirect, has been realized.

Eighth. A person should never be debited in his personal account for his Note or Acceptance in favor of another, while such Note or Acceptance is held in the possession of the creditor.

In the face of these axioms, which prudence dictates and common sense approves, we find in the treatises of which we complain numerous solutions of practical transactions in direct violation of these axioms, as follows :

To debit, as these treatises do, the Interest account of the creditor in a record of the accrued interest on a Note or Bond when purchased from another, is to violate the second, fourth, and sixth axioms.

To credit Interest account in a record of the accrued interest on an assumed obligation in the form of a Note, when such obligation is assumed, is to violate the first, fifth, and seventh axioms.

To debit Interest account for any portion of one's assets on opening a set of Books in Double entry, is to violate the second, third, fourth, and sixth axioms.

To credit Interest account for any portion of one's liabilities on opening a set of Books in Double entry, is to violate the first, third, fifth, and seventh axioms.

To debit the payor's personal account for his protested Note, whilst such note is retained in the possession of the payee, is a violation of the eighth axiom.

Having thus criticised the prevailing, nevertheless very defective, systems of Book-keeping by other authors, it remains

for us to produce a better system, a system of Book-keeping governed in all its details, combinations, and results by correct principles; logical, intelligible, correct, and reliable.

Such a system, embraced in a treatise recently published by A. G. Scholfield, of Providence, R. I., entitled an *Essay on Debit and Credit*, can be had at the following prices:

## OPINIONS OF THE PRESS.

MR. ALBERT G. SCHOLFIELD, principal of the commercial college in Providence, bearing his name, has recently published an elementary and practical treatise on book-keeping, bearing the title of *An Essay on Debit and Credit*. This careful and exhaustive work on the science of accounts is based upon experience, and will bear the closest analysis and scrutiny. The object has been to elucidate a new and admirable method of detecting errors in single-entry book-keeping, to expose a common fallacy, and to illustrate the true method of opening a set of books in double entry. By a simplified classification of interest and premium, it avoids the fallacious entries of several popular works on book-keeping, which treat a debtor as a creditor and a creditor as a debtor, assets as liabilities and liabilities as assets. They both debit and credit profit and loss in the record of certain original transactions, when there has been neither gain nor loss, and they treat a person as both debtor and creditor, in one and the same transaction. This contradictory classification has puzzled the brains of all classes of persons, and this work will no doubt be hailed especially by accomplished accountants everywhere as bringing light out of darkness.—*Boston Daily Advertiser*, Oct. 22, 1881.

AN ESSAY ON DEBIT AND CREDIT, by A. G. SCHOLFIELD, is the title of a new treatise upon book-keeping, in which the author claims to have made great improvements upon the methods now in use for keeping accounts, both by single and double entry. The author is the principal of a commercial college in Providence, R. I., and his system appears to be well worthy the attention of all those who take pride in the accuracy of their records of business transactions and the facility of their explanations.—*Boston Herald*, Oct. 23, 1881.

AN ESSAY ON DEBIT AND CREDIT.—A new treatise on the science of accounts, modestly called an *Essay on Debit and Credit*, has been presented to us by the author, Mr. A. G. Scholfield, the founder of Scholfield's Commercial College, in Providence, R. I., and for thirty-five years its principal. This exhaustive work marks a new era in the science of accounts. It presents many important and invaluable features not known to the old system—the latter being so intricate and puzzling as to mislead young learners and old accountants alike. This essay will admirably serve the double purpose of simplifying many hitherto complicated things in the science of accounts, and transforming what in its study has heretofore been an irksome task into a pleasant pastime. It exposes the error fallen into by most, if not all other, treatises on book-keeping.

This essay also elucidates fully the duty of an administrator, a guardian, trustee, and a treasurer; thus these and many other features constrain us to pronounce it a work of great excellence and merit, an invaluable guide to the student, an indispensable companion to the accomplished accountant, and a desirable accessory to every well-ordered counting-room.—*Lowell Times*, June 7, 1881.

ESSAY ON DEBIT AND CREDIT.—Such is the modest title of an exhaustive and exceedingly meritorious treatise on the science of accounts, by Mr. A. G. SCHOLFIELD, of Providence, R. I. The author has not contented himself with walking in the old and beaten paths, but has marked out for himself a new and original one, often running directly across the track of his predecessors. In the old system the classifications of debits and credits have been so illogical and contradictory as to puzzle the brains of both the young learner and the old accountant. The author has done much in this work to aid in clearing away the rubbish usually surrounding this subject, and in presenting it in such a light as to be easily seen and perfectly comprehended.—*Lawrence Daily American*, Sept. 8, 1881.

DEBIT AND CREDIT.—An *Essay on Debit and Credit*, by A. G. SCHOLFIELD, of Providence, R. I., founder and proprietor of a commercial college bearing his name, has been brought to our notice. From a partial examination, we are led to the conclusion that it is a work of unusual merit. As a guide to beginners in the science of book-keeping, it will prove invaluable, and as a text-book and counting-house companion, indispensable.—*Lynn Daily Evening Item*, May 5, 1881.

AN ESSAY ON DEBIT AND CREDIT.—Anything that tends to make book-keeping a more simple art should be hailed with joy. The old systems were worse to follow or explain than a *Herald* war map, or a tangled skein of silk, and young book-keepers often despair of learning all the intricate, puzzling forms. An *Essay on Debit and Credit*, by A. G. SCHOLFIELD, has recently been published, that does much to clear the sight of students in book-keeping, and it can be read with profit by guardians, administrators, assignees, treasurers, and other keepers of accounts. It includes lucid illustrations of bills of sale, leases, co-partnership contracts, balance-sheets, account-current sheets, etc., and is a very desirable work for everybody to own as a help to defective memories, or deficient knowledge.—*Holyoke Transcript*, May 14, 1881.

## A BRIEF HISTORY

OF

# Scholfield's Commercial College.

THIS Institution was founded by its present Proprietor, Albert G. Scholfield, in June, 1846.

In the absence of suitable quarters, not to be found in the City of Providence, in which to locate such an Institution, it was located temporarily in the Mallett Building, on South Main Street, waiting the completion of a building in process of erection on Westminster Street, near the junction of

Westminster and Weybosset streets, to which (Jones Building) it was removed in April, 1847.

This was the first commercial school established in Rhode Island, and the patronage for its first year was secured by great exertions on the part of the principal, so skeptical were the citizens of the State in regard to the necessity for such a school and the advantages to accrue therefrom.

The primary object of this Institution was to cultivate a taste for Writing, and awaken a greater interest in the science of accounts. Hence, Writing and Book-keeping were the leading branches taught. For the first three years its patronage was drawn mainly from men in actual business, either as accountants or their employers.

It soon became apparent that it were wise to introduce other branches, the common and higher English department and Mechanical Drawing, which latter study has been almost exclusively confined to professional mechanics.

After three years' occupation of a suite of rooms in the Jones Building, and it having become apparent that a more favorable location could be obtained elsewhere, this Institution was removed, in the spring of 1850, from the Jones to the McNeal Building, No. 81 Westminster Street, where it thrived beyond all precedent, and maintained itself against all competition, near or remote. At this stage of progress, occupying, as we did at this time, seven large apartments, all of which were crowded to their utmost capacity, we were compelled, by the constantly increasing number of students, to seek more capacious quarters, which we did, in the Howard Building, to which this Institution was removed in July, 1866.

Whilst the accommodations for such an Institution, thus secured, were the best that could be obtained in this city at that time, and served our purpose better than the place from which we last moved, yet it did not meet all the requirements of an Educational Institution like ours. In the erection and completion of the Paris Building, so-called, on the corner of Westminster and Eddy streets, every desirable provision was made to meet the demands for a Mercantile and Commercial

School edifice, and in April, 1881, Scholfield's Commercial College was removed to this building, where it now occupies apartments in every way suited to the demands of the times. The patronage of the school has ranged since its establishment from Fifty to Five Hundred Students per annum. The Teachers have numbered from two to twelve, as occasion has demanded. During the Thirty-seven Years of its existence it has enjoyed a patronage of Eleven Thousand Students, and has graduated Three Thousand Four Hundred in the Business or Book-keeping course. In relation to the merits of this Institution, let its past history and the Eleven Thousand who have received instruction within its walls, answer. In relation to its future, we have only to say that never since this Institution was founded were we as well prepared to impart instruction in the various branches we advertise to teach, as we are to-day.

#### REMOVAL.

This Institution, recently removed to its present quarters, occupies the entire fourth story of the new Paris Building, No. 193 Westminster Street, embracing the Paris Hall, the dimensions of which are thirty-three by seventy-five feet, fifteen feet studded, and lighted by eight massive windows on the north. Connected with this splendid hall are five spacious and commodious rooms, two of which are each sixteen by twenty-four feet. The entire premises are heated by steam, and for light and ventilation are not excelled, if equaled, by any other Educational Institution in this city or State. These unsurpassed College Rooms are reached by a well-lighted and easy staircase, or by means of an elevator. The public are cordially invited to call and look through our premises.

**REDWOOD LIBRARY AND ATHENÆUM.**

Bellevue avenue, corner Redwood street. This time-honored institution was originated in 1730, and was incorporated by charter in 1747. The present edifice was erected in 1748, and it was enlarged in 1858, and again in 1874-5. *Treasurer*, Job T. Langley; *Secretary and Librarian*, Benjamin F. Thurston. Ex-Gov. Charles C. Van Zandt is one of the directors. Whole number of books in the library is 25,000. It is a private institution, but always *free* to those who are introduced. It is designed, in a great degree, as a library for consultation, and hundreds of eminent persons, who may be found here in the summer season, resort to it for aid on the subjects which they are investigating. They do not desire to take the books away with them, and for the purpose referred to the collection is invaluable. The walls are hung with valuable paintings, and a number of pieces of fine statuary may be found, principally the gift of the late Edward King, Esq., who, together with his family, have been great friends of the institution.

**INTENTIONALLY BLANK**

Having added to my outfit the best Steam Drill Rig in the Oil Region Market, I am better than ever prepared to furnish water, pure and plenty, by passing through salt water, or hard and bad surface water.

Deep-driven wells have proved inexhaustible where all others have gone dry. They yield water free from contaminations. No ice is needed, and no water rent to pay. Three to four sets of skilled workmen constantly employed, whose experience aggregates 974 wells. Water pumped up FROM ANY DEPTH from surface in DRIVEN or drilled wells, by means of lower-working cylinders, put down with tools of my own invention.

I can refer to all of my patrons, a few of whom are DR. JOB KENYON, Warwick, R. I., and Hon. JAMES M. PENDLETON, Westerly, R. I., of the Board of State Charities and Corrections of Rhode Island. American Enamel Co., Providence; Barstow Stove Co., Providence; Kendall Mfg. Co., Providence; S. & B. Lederer, Providence; Curtis B. Fales, Cranston, R. I.; Nayatt Brick Co., Nayatt Point, R. I.; Prof. T. Whiting Bancroft, Warwick Neck, R. I.; Stephen A. Cooke, Jr., Warwick Neck, R. I.; Richard Comstock, Warwick Neck; What Cheer Brewery, Cranston, R. I.; Providence Land Co.; C. H. Merriam, Nayatt Point; Rowland Hazard, Peacedale, R. I.; Dr. Charles Wiggin, Field's Point; Edward Mayer, Newport; Sebastian Garst, East Providence; Conanicut Land Co.; William Champlain, Jamestown, R. I.

Through deep-tide water or any earth formation (cobble stone and rock not excepted.) Everything brought to the surface, and a complete sectional view obtained of materials, to any depth desired. A new and highly successful method employed. I refer, by permission, to Samuel M. Gray, City Engineer, Providence, R. I., W. D. Bullock, Engineer in charge of Bridges, Providence, R. I.
